Quick Guide

FE Test Kit

- Abrasive & corrosive iron detection
- Measuring range 10 – 500 / 2500 ppm
- Accuracy $\pm 10\%$
- Fe²⁺ and Fe³⁺ dilution
- Test kit includes 60 tests
- Non dangerous consumables!

#1505 TribolIron 2.0
#1506 TribolIron 2.0 with shaker

Reagent to determine the iron content.
Non-hazardous for transport and storage.

#1518 60 tests
#1519 120 tests

Scrape Down Analysis

Low sulfur fuel (VLSFO) insists on an increased iron content observation.

The result of high iron values over time may cause severe damage to the main engine.

Scrape Down Analysis [SDA]
Combined FE + TBN

TribolIron 2.0 + BN
#1638

TribolIron 2.0 + WiO/BN
#3125
