

TriboDens

Density Determination

The TriboDens, manufactured by Tribomar, is a modern device to determine the density of lubricants and fuels onboard. The TriboDens enables the engineer to check the density of fuels before and during bunkering.

An easy handling procedure provides quick and accurate measurements. The TriboDens is enclosed in a robust metal housing and incorporates state-of-the-art features regarding software and handling.

Density Range	:	0.82 – 1.06 kg/l
Temp Range	:	ambient 105°C
Power supply	:	AC 230Volt
Measuring range	:	20 – 280°C
Dimensions	:	24 x 11 x 18 cm
Weight	:	1.5 kg

Order No.: 1113
