

Digital Vortex Mixer with Timer

- Optimized Performance, Quiet Operation
- Clear communication: Bright Display and Timer
- Ergonomic handling and excellent stability
- Continuous or Infra-red sensor mode
- Versatility for many applications
- Pressureless useage

This mixer is a digital IR vortex mixer, operating in continuous or infrared system (IR) mode, with adjustable stirring speed up to 3000 rpm.

Thanks to the revolutionary IR sensor mode, an infrared system (IR) detects the presence of the test tube and the instrument automatically starts vibrating!

No pressure is applied when using with IR Sensor mode. Through the timer, it is possible to set the operating time (up to 999:59 min.).
