

**Green Line**

## Organic Cleaning Agent

**Organic based – non hazard**

- Special cleaning spray for all test equipment from TRIBOMAR
- Also usable for other makers devices
- Biological production
- Non-chemical
- Renewable resources
- No danger for environment and crew
- No hazard statements required

The Reamar Cleaning Agent is a non-classified, waterfree cleaner for all TRIBOMAR test devices. Especially the new formula which is biological produced will help to protect environment and crew.

By using Reamar cleaning agent the test devices are cleaned in a most mild way and helping the operator to keep the equipment operational at any time.

Original parts of TRIBOMAR and following the hints provided in the instructions of the test equipment will help the user to make the devices a long lasting tool for the oil management on site.
